## FAQS

### **How do I use my summer meal plan?**

Meal plans come with a set amount of Meal Swipes and Dining Dollars. Meal Plans are loaded onto student's ID cards and are activated the Friday before the semester begins. Meal Swipes can be used at the designated dining location specified in this brochure. Dining Dollars can be used at any available USF Dining locations on campus.

### **Can I upgrade my meal plan?**

Yes! You can upgrade your meal plan at anytime at [usfdining.com](http://usfdining.com) or by visiting the meal plan office on the Tampa Campus, MSC 1502.

### **Can I add more dining dollars or meal swipes?**

You can always add more dining dollars onto your account. If you use all of your meal swipes, you can add another plan onto your account at anytime!

### **Can I treat friends to a meal?**

You can treat a guest to a meal on campus by using dining dollars at any USF Dining location.

### **Do my unused meal swipes and dining dollars roll over to the next semester?**

Unused meals do not rollover semester to semester. Unused Dining Dollars do rollover from fall to spring, but do not from spring into summer, or summer into fall.

### **How do I pay for the meal plan?**

The meal plan is paid through your student Oasis Account online similar to your tuition and housing payments. You can use financial aid or scholarships to pay for the meal plan but are responsible for any amount that is not covered by financial aid.

### **Do I really need a meal plan?**

We have meal plans that accommodate all lifestyles. Keep in mind a meal swipe does not need to be used for a full meal. Many students choose to swipe into the dining halls for a snack, beverage, or just to hang out with friends. The Open Access plan provides the greatest value since you do not need to keep track of the number of meals used every time you swipe your card.

### **How do I know what dining locations are open?**

USF Dining's hours of operation are available on [usfdining.com](http://usfdining.com) by clicking on the Hours of Operation tile on the homepage or by clicking the location and menus tab. Please note, summer hours and open locations are subject to change based on demand and inclement weather.

### **Is there an option to take your meal to-go?**

Yes! During Summer A, all meal plan holders will have the option to dine in or take their meal to go. During Summer B, meal plan holders can opt into our OZZI Reusable to-go container program at the register of our dining halls. After making a refundable deposit of \$5 Dining Dollars you will be provided a green O2GO box. Students can return the used box to the OZZI machine at the front of each dining hall and the machine will dispense a gold token. You can choose to present the token to the cashier if you would like your next meal to go for a new box. If you would like to dine in, you can hold onto your gold token for the next time you would like a meal to-go. Keep in mind, it is a meal swipe to dine in and an additional meal swipe if you would like to also take food to-go in the same visit.
